

# Gaskets and Gasket sets suitable for BMW B58

Following the six-cylinder tradition, the B58 engine celebrated its premiere in autumn 2015. The turbocharged 3.0-litre six-cylinder in-line engine is undoubtedly one of the sportiest and most important units in BMW's engine portfolio. The B58 is the successor to the N55 engine. The engine has been further developed and significantly improved in important areas. Not least because of this, the outstanding sports engine has secured a place in the list of the '10 Best Engines and Powertrains' of the American industry service 'WardsAuto' twice so far - in 2017 and 2020.
